

## Kin's Domain/Ringing Cedars Newsletter 1<sup>st</sup> March 2019

Greetings!

I hope this email finds you well and inspired for the year ahead. Just wanted to give you an update on things *Ringing Cedars – Kin's Domain – Space of Love* related.

Some of you may know that last year we had four very inspiring and successful meet-ups in the south west of England and we're now planning the next few dates for this year (*photos on our Facebook Page and Website*).

Our next meet-up, which will be an informal gathering, will be on **Sunday the 10<sup>th</sup> March**. We were planning the 16<sup>th</sup> but then discovered that there will be a whole weekend of Extinction Rebellion events in Bristol with exhibitions, trainings, music and much more so we figured we'd be competing too much with that so we decided on the 10<sup>th</sup> March in Swindon (*venue to be confirmed in the next few days – just get in touch if you're interested in coming and we'll send you the details*).

All that's required for the events:

- an interest in the Kin's Domain/Ringing Cedars books and family homesteads initiative
- your ideas and inspirations
- some food to share on the day (*unless we meet in a cafe*)
- a little contribution for the room hire (*when we're not camping, meeting in a cafe or picnicking in parks*) and of course...
- your good presence!

### **Other News**

#### **Two great blog articles came out in recent months:**

Here's an article about one member of our group who's managed to start a project in Somerset: <https://www.loveproductions.org/english/articles/robs-kin-domain>

Here's a link to an interview I recently did for one of our members' website blog about Kin's Domains: <http://www.awomanswords.com/kins-domains/michaelangelo-and-his-kins-domain>

**Two documentary film makers** from London are interested in researching the Anastasia/Ringing Cedars Movement in the UK and Europe for their own interest and for a possible film, and hope to join us at one or some of our meet-ups.

**The past few years I've been inspired by some other good groups and organisations that are doing their best to get people back on the land in the UK:**

Ecological Land Cooperative <https://ecologicalland.coop> - these have had some success already!

One Planet Council <http://www.oneplanetcouncil.org.uk> - these are having success in Wales

Another organisation and a new book around the planning process:

Oxford Real Farming Conference: <http://orfc.org.uk/>

And Wales is becoming more forward thinking with its **Well-being of Future Generations (Wales) Act 2015**

There is also a big movement of housing and worker co-ops in the UK where people tend to live and work together more communally: <http://www.radicalroutes.org.uk/>

And of course Vladimir Megre's website: <https://vmegre.com/en/> for all his latest news.

Hope all this helps keep the inspiration flowing!

- Let us know if you'd like to join our meet-up on the **10<sup>th</sup> March in Swindon**
- Please do make use of our Facebook group page (*Kin's Domain UK Family Homestead Settlements*) for getting to know each other and for sharing ideas online to help move the concept forward in the UK.

May I wish you a fabulous Spring and hope to see you very soon,

*Michael Angelo*
